Said he:

wages, and it is up to the employees | Zeitung": to concentrate their efforts on a maintenance of their present wages."

How truly Hylanesque is that as-

sertion-indefinite, involved, inept, mean! Why did not the Mayor name the "certain interests" he had in mind-the people of New York, who employ him and everybody else on the pay rolls of this great municipal corporation? These are the interests and the only ones demanding not that salaries and wages by themselves shall be cut, but that the whole cost of government shall be readjusted in keeping with the earnest policy of nation and state to get back as soon as may be to a normal and sane basis of life. And yet this fatuous man stands forth urging the employees of the city to organize against their employers, their livelihood, their future and the wellbeing of the city. Would he have these men and women who work for the eity understand that they are a class unto themselves, exempt from the inexorable laws which are duly determining the resultionship of other working men and women in every field of human endage of the city. Would he have these men and women in every field of human endage of the city understand that their clumsy wooing is as offensive to the foreign born as it is to the native born?

David Bispham

A few words in appreciation of high merit and of gratitude for gracious accomplishment and potent their native culture that they are not permitted to learn at home, you would have heard me explaining why the depose she is seeking an alliance with Poland, and for that reason she is the true product of the American extension of the product of the American extension of the true product of the American extension of the product of the Poland, and for that reason she is fleve that any other person, association of the empt from the mexorable laws too has any interest, direct or indirect, in the stock, bonds or other securities than as 40 which are duly determining the re-
